GENERAL INTRODUCTION.

The continuous and growing interest so signally manifest in all departments of church work, the corresponding facilities with which every enterprise is carried to success, together with the enthusiasm of numbers, and respectful recognition of their power on every hand, all combined have enabled the committee to present a Year Book of the Disciples of Christ that will challenge the respect and confidence of all concerned.

Without claiming anything like perfection for a work depending so largely on the voluntary and gratuitous aid received, we can give assurance that the statistics are the latest attainable and being gathered mostly at the same time and under the inspiration of the Eleventh Census of the United States, in charge of Dr. Henry K. Carroll of Plainfield, N. J., special agent of the same, it is reasonable to presume that these facts and figures are fuller and more nearly correct than any hitherto presented in the history of the church. The several state secretaries, with commendable zeal and persistence, in the face of much indifference among the churches, have made it possible to reach a record both helpful and hopeful for the statistician in the future. In a few instances we have been obliged to supplement some features of State reports by estimates based on former data and cannot therefore claim for these the accuracy so much desired.

This is practically a triennial Church Book rather than a Year Book and while a few of the better organized States may anticipate some features of the book by more recent reports, yet as a whole and for the whole country, this book will be peculiarly valuable for years as a work of reference. In our effort to be concise the names of counties appearing in alphabetical order in Year Book of 1888 have been left out of these schedules, the number of each district in any State thus organized like Ohio, the local name of the church, together with name of correspondent and post-office in all other States being deemed sufficiently explicit for all practical purposes.

The Negro or African Churches, mostly in the southern part of our country, appear in separate schedules when so reported to the committee and this, for purposes of special work in their behalf by the New Board of Negro Evangelization and Education, is proper and should be observed on this basis alone in the future.

The average per member by States for local work and missions is as nearly correct as can be made on the returns and estimates given and may awaken wholesome emulation as well as suggest revision and improvement in most of the States.

Universities, colleges and other schools of learning have a fuller and more satisfactory showing in this book than in any hitherto published. So, also our periodical literature, the making of many books and tracts, etc., etc., are pretty fully recognized here in a revised and amended list to date.

The department of C. W. B. M. is ably represented by Miss Lois A. White, Corresponding Secretary of the Board and Editor of the Missionary Tidings, published at Indianapolis, Indiana.

For the paragraph statement of Sunday-school Normal work we are indebted to Bro. J. G. Waggoner, of Eureka, Ill., who has been identified with this movement from the beginning. Whatever excellencies this book may contain are attributable largely to the faithful service of the State secretaries, and the deficiencies on the other hand must be relegated to the indifference of local church officials who failed to report promptly and accurately the statistics necessary for a full and complete exhibit of our numbers and resources.

We court and solicit adverse criticism from all thus inclined to the end that fuller and more accurate reports may be secured hereafter, and therefore corrections should be freely made and forwarded to any one of the undersigned, especially to the Chairman and Secretary.

This Association was organized Oct. 24, 1849, and incorporated by the Legislature of Ohio the year following. The first name, "American Christian Missionary Society," was changed to "General Christian Missionary Convention" in 1869. It gave attention to both Home and Foreign Missions until 1875, when, on the organization of the Foreign Christian Missionary Society, it turned attention exclusively to Home Missions. It does not, however, establish Missions in States which have efficient State organizations. Its Missions will be found chiefly in the new States and Territories of the rapidly-growing West, and in the Atlantic and Gulf States.

The Acting Board of Managers has charge of funds contributed for the support of pastors and evangelists, the distribution of tracts, and the support of supernumerated and disabled ministers.

The Board of Church Extension has charge of funds contributed for building houses of worship.

The Board of Negro Evangelization and Education has charge of funds contributed for the support of missions and schools among the Negro population of our country.

All funds for Acting Board should be sent to R. Moffett, Corresponding Secretary, 715 Logan Ave., Cleveland, Ohio.

For Board of Church Extension to G. W. Muckley, Secretary, Kansas City, Mo.
 For Board of Negro Evangelization to H. L. Stone, Treasurer, Louisville, Ky.

THE CHRISTIAN WOMAN'S BOARD OF MISSIONS.

This Society was organized in Cincinnati in October, 1874, and was incorporated under the laws of the State of Indiana, with headquarters at Indianapolis, in 1881. The objects of the Association are to disseminate missionary intelligence, to increase missionary zeal, to secure from Christian women, especially, systematic contributions for missions, and, finally, to support ministers and teachers on mission fields.

Any person may become a member of the Association who will contribute the sum of \$5 a year to its funds. One may become a life member by the payment of twenty-five (\$25.00) dollars, in not more than two annual installments. The members, for the most, are associated in Auxiliary bands in the churches and these Auxiliaries hold regular monthly meetings.

An annual mass meeting is held in connection with the General Convention, at which officers are elected, reports are made and other general business is transacted. During the interval between these annual meetings the business of the society is carried on by an Executive Committee, consisting of the general officers and five unofficial members residing at or near Headquarters. The general officers are the President, Vice-President, Corresponding Secretary, Recording Secretary, Treasurer, and a President and Secretary for each State.

The above mentioned two officers for each State are not only members of the Executive Committee, but are at the head of a Board of Managers who act as an organization committee for the enlargement of the Auxiliary force in their respective States.

The Executive Committee holds regular semi-monthly meetings for the prosecution of the ordinary business of the Association. For the purposes named, five members (including three of the general officers) constitute a quorum; but all new business of special importance, as the starting of new missions, and the like, is transacted by the whole Committee, the absentee members voting by proxy.

The General Fund of the Society is supported by the contributions of Auxiliaries mainly, by incidental offerings from the friends of the Board, and by interest on loans from an endowment and a permanent memorial fund, only the interest on these two funds being available for current use. The endowment fund is built up by bequests and life memberships, and it now amounts to \$19,540.03. The permanent memorial fund consists of amounts given in honor of deceased friends, and it is the understanding that the interest thereon shall be used in the aid of western missions only. But many persons have sent like memorial offerings specifying that the principal is to be used in the prosecution of the Board's western missions. Besides these funds, there is an organizer's fund for the increase of Auxiliaries, and a fund created by the contributions of the children, and used in the erection of buildings on the mission fields.

The receipts of the Society since its organization have been as follows:

M. and medium of communication between the general officers and other members, and the disseminator of missionary intelligence to all its readers. It is edited by the Corresponding Secretary. This paper is now in its ninth year and has a circulation of about 7,500. In May, 1890, the Board began the publication of the *Little Builders at Work*, an 8-page monthly, the price of which is 25 cents a year. This paper bears the same relation to the Children's Band work that the Tidings does to the older Auxiliaries. Its circulation is about 3,000.

THE FOREIGN CHRISTIAN MISSIONARY SOCIETY.

Headquarters at Room 55 Johnstons Building, Cincinnati, Ohio.

This Society is an agent of the Churches of Christ in carrying the gospel to the unevangelized. It was organized in Louisville, Ky., October, 1875.

It has missions in the following countries: Scandinavia, Turkey, England, India, Japan, and China. It has 75 missionaries in all: 30 males, 18 females, and 27 native helpers. Of these, 6 are in Scandinavia, 14 are in Turkey, 8 are in England, 18 are in India, 10 are in Japan, and 19 are in China.

The whole number of additions from the first is 5,310. Two churches are now self-supporting. Schools have been opened in Turkey, India, Japan, and China. Several chapels and homes have been erected.

The total receipts from the organization of the Society amount to \$443,237.63. The receipts for the last year amount to \$67,750.49. The receipts from the Sunday-schools from the first aggregate \$84,509.62. The receipts from the Sunday-schools last year amount to \$17,795.94.

The current expenses amount to about six per cent. of the gross receipts. The larger the receipts, the smaller the per cent. of expense. If the receipts were doubled, the per cent. of expense would be reduced almost one-half. The bulk of the expense is required to secure the money from the churches. It is not handling the money that costs, but getting it to handle. The cost would not exceed one-half of one per cent. if the churches would contribute the funds as they are needed.

Officers for 1890-91.

President.—Chas. Louis Loos, Lexington, Kentucky.

Vice-Presidents.—R. T. Mathews, Lexington, Ky.; J. Z. Tyler, Cincinnati, O.; H. McDiarmid, Cincinnati, O.; C. W. Talbott, Cincinnati, O.; C. J. Tannar, Cincinnati, O.

Recording Secretary.—P. T. Kilgour, Cincinnati, Ohio.

Treasurer.—W. S. Dickinson, Cincinnati, Ohio.

Auditor.—J. T. Wright, Cincinnati, Ohio.

Regular Collections.

One collection will be taken up in the churches this year, and one in the Sunday-schools. The time for the collection in the churches is the first Lord's day in March. A special effort should be put forth to make this offering as large as possible. Children's Day is the first Lord's day in June, when the offering will be made by the Sunday-schools.

The Wants of the Society.

1. We want a wider and deeper sense of the claims of missionary work. Christian people do not realize that our Lord, after his resurrection and before his ascension, gave *one* great charge to the church. That charge is found in some form in all the Gospels and in the Acts. It is *to evangelize the world*. It is not to turn every one from the error of his way, but to preach the gospel to the whole creation. This charge is as binding as the command to believe, or to repent, or to be baptized. We have no option in the matter. This is the supreme mission of the church.

2. We want a more widely-diffused knowledge of what is being done to evangelize the world. We keep posted about political and commercial affairs. We want to know what is being done in all parts of the world, and search the daily papers to learn. We should be as eager to know what progress is being made in the evangelization of Africa, India, Japan, China, and the Islands of the Sea. We should watch to see what new advances are made into the kingdom of darkness, and what new strongholds are won and held for Christ. There can be no interest in the absence of knowledge. "Fire may be fanned with the wind, but it can be fed only with fuel; and the fuel of all missionary zeal is a knowledge of the facts."

3. We want, not collections and subscriptions for the Society, as though the Society were a charitable institution, but that the contributors should realize that they are the Society, a great brotherhood of Christian people, banded together for the first and highest of all objects, and all alike sharers in the work, in its joy, and its reward. We want, therefore, offerings on a scale totally different from that now prevails. A young woman in England, working for her livelihood, has lately given more than half her income to help provide a "substitute for herself in the Lord's army." Men of wealth have undertaken the support of several missionaries. Not many can do so much; but all should give and work in the same spirit.

4. We want more men and more women for the foreign field; and we want the very best. The infant church at Antioch gave up its only two apostles for missionary work. There is work in the mission field for all, provided they have consecration and good sense. But there is great need of wise master-builders to lay foundations, and to start to work right.

5. We want constant, fervent, believing prayer for missions, missionaries, and missionary agencies, and for the universal triumph of the truth.

Form of Bequest.

The following form may be employed by persons desiring to donate a sum of money by will to the uses of this Society:

"I give and bequeath to the Foreign Christian Missionary Society, of Cincinnati, Ohio, a corporation existing under the laws of the State of Ohio, the sum of \$....., and the receipt of the Treasurer thereof shall be a sufficient discharge to my executors for the same."

All business correspondence and remittances should be addressed to A. McLean, Corresponding Secretary, Box 750, Cincinnati, Ohio.
