General Introduction.

THE statistics in this volume are the latest. We have been compelled, in a large number of churches, to reproduce the figures from the volume of 1885, adding a small per cent for increase; and believing the per cent. added too small, we have, opposite "Miscellaneous" in the general table, added about ten per cent. to the footings. The per cent. added in most States was a little in excess of the per cent. of growth for one year; whereas it should have been for three years. The States of New York, Ohio, Michigan, Illinois, Missouri, Wisconsin, and the Territory of Montana may be set down as quite full and accurate.

The estimates of 1885, based upon the number of preachers, were found in most States to be much too high. We think we have not over-estimated the membership in this volume. With reference to the large table, in some of the columns, notably the amount for local work, the aggregate number and membership of churches and Sunday-schools, officers and teachers, are largely estimates made by the several State secretaries. In making up the aggregate membership we have taken the liberty to strike the average for the reported churches, and multiply this average by the estimated number of churches not reported. This result and the footings for the reported churches make the aggregates of the general table. The same course was pursued to some extent with the other columns, except in States which are recognized as quite complete. It will be seen that this is not a very satisfactory showing, but it is the best we can do with the data in hand.

We have substantially nothing from colored churches, and hence the figures are wholly estimated.

It is simply astounding that the elders of our churches are so indifferent about reporting. Every known church was supplied with a blank, and comparatively few sent in returns.

We have recast the report of 1885, classifying churches of nearly all the States by counties, and preachers by States. We believe this will facilitate the work of completing statistics for the next year. In our efforts to make the classification by counties, we have found many names of churches without post-offices. These we have classed "unknown." Sometimes, knowing the county, we have given the county-seat as the post-office.

We are painfully aware that in copying some of the preachers' lists from the last Year-Book we must have failed to secure the proper address. We have, however, reliable lists from the secretaries of Pennsylvania, New York, Ohio, Indiana, Michigan, Illinois, Kansas, Missouri, Texas, Iowa, Nebraska, Wisconsin, Kentucky, Alabama, and Mississippi. In the other States and Territories we have made such corrections as our own data afforded.

After we had partly compiled full statistics, according to the plan of 1885, it was found that our best publishing houses were unwilling to run the risk of publication. The publishers of the last volume sunk a large sum in its publication. We have therefore abridged the present volume, and will probably do so for 1889. In 1890, the year of the United States census, we hope to be able to secure and publish full and accurate statistics. For the accomplishment of this desired end we will hold the State secretaries responsible for the necessary painstaking work.

The Convention having supplied us with no funds for the publication of a Year-Book, we have been compelled to find a publishing house which would take the risks. The Standard Publishing Company takes the risk, with the privilege of adding pages of advertisements of their own selection.

We ask all who are interested in securing the fullest statistics to send to R. Moffett, 715 Logan Avenue, Cleveland, Ohio, such corrections and additions as may occur to them.

THIS association was organized October 24, 1849, in the city of Cincinnati. It was then called "The American Christian Missionary Society," and was incorporated by the Legislature of Ohio the following year. Alexander Campbell was elected President, and served as such until 1866. In 1869 its name was changed to "The General Christian Missionary Convention." It gave attention to both home and foreign missions until 1875, when, upon the organization of "The Foreign Christian Missionary Society," it turned attention exclusively to home missions. It does not, however, establish missions in States which have sufficient force to maintain efficient State organizations. The new States and Territories of the rapidly growing West, the States of the reviving South, and the Atlantic coast, are the fields in which the General Board is expected to establish and support missions. We present on the following page a table exhibiting the labor of missionaries for the year.

THE FOREIGN CHRISTIAN MISSIONARY SOCIETY.

THIS Society is an agent of the Churches of Christ in carrying the Gospel to the unevangelized. It was organized in Louisville, Ky., October, 1875. It has missions in the following countries: Scandinavia, Turkey, England, India, Japan, and China. It has forty-five missionaries in all; twenty-two males, nine females, and fourteen native helpers. Of these, two are in Scandinavia, twelve are in Turkey, seven are in England, eleven are in India, six are in Japan, and seven are in China.

The whole number of additions from the first is 3,518. The number added last year was 592. Two churches are now self-supporting. Schools have been opened in Turkey, India, Japan, and China. Several chapels and homes have been erected.

The total receipts from the organization of the Society amount to \$259,201.60. The receipts for the last year amount to \$40,559.35.

The current expenses amount to about six per cent. of the gross receipts. The larger the receipts, the smaller the per cent. of expense. If the receipts were doubled, the per cent. of expense would be reduced almost one-half. The bulk of the expense is required to secure the money from the churches. It is not handling the money that costs, but getting it to handle. The cost would not exceed one-half of one per cent. if the churches would contribute the funds as they are needed.

Regular Collections.

Two collections are taken up in the churches each year, and one in the Sunday-schools. The time for the collections in the churches is as follows: The first Lord's day in March, and the first Lord's day in September. The first Lord's day in June is Children's Day. This is the time for the collection in the Sunday-schools.

The Wants of the Society.

1. We want a wider and deeper sense of the claims of missionary work. Christian people do not realize that our Lord, after his resurrection and before his ascension, gave *one* great charge to the Church. That charge is found in some form in all the Gospels and in the Acts. It is *to evangelize the world*. It is not to turn every one from the error of his way, but to preach the Gospel to the whole creation. This charge is as binding as the command to believe, or to repent, or to be baptized. We have no option in the matter. This is the supreme mission of the Church.

2. We want a more widely diffused knowledge of what is being done to evangelize the world. We keep posted about political and commercial affairs. We want to know what is being done in all parts of the world, and search the daily papers to learn. We should be as eager to know what progress is being made in the evangelization of Africa, India, Japan, China, and the islands of the sea. We should watch to see what new advances are made into the kingdom of darkness, and what new strongholds are won and held for Christ. There can be no interest in the absence of knowledge. "Fire may be fanned with wind, but it can be fed only with fuel; and the fuel of all missionary zeal is a knowledge of the facts."

3. We want, not collections and subscriptions for the Society as though the Society were a charitable institution, but that the contributors should realize that they are the Society, a great brotherhood of Christian people, banded together for the first and highest of all objects, and all alike sharers in the work, in its joy, and its reward. We want, therefore, offerings on a scale totally different from what now prevails. A young woman in England working for her livelihood has lately given more than half her income to help provide a "substitute for herself in the Lord's army." Men of wealth have undertaken the support of several missionaries. Not many can do so much; but all should give and work in the same spirit.

4. We want more men and more women for the foreign field. And we want the very best. The infant church at Antioch gave up its only two apostles for missionary work. There is work in the mission field for all, provided they have consecration and good sense. But there is great need of wise master builders to lay foundations, and to start to work right.

5. We want constant, fervent, believing prayer for missions, missionaries, and missionary agencies, and for the universal triumph of the truth.

Form of Bequest.

The following form may be employed by persons desiring to donate a sum of money by will for the uses of this Society:

I give and bequeath to the Foreign Christian Missionary Society, a corporation existing under the laws of the State of Ohio, the sum of \$....., and the receipt of the Treasurer thereof shall be a sufficient discharge to my executors for the same.

All business correspondence and remittances should be addressed to A. McLEAN, Corresponding Secretary, Box 750, Cincinnati, O.

THE CHRISTIAN WOMAN'S BOARD OF MISSIONS.

THIS Society was organized in Cincinnati, in October, 1874, and was incorporated under the laws of the State of Indiana, with headquarters at Indianapolis, in 1881. The objects of the association are to disseminate missionary intelligence, to increase missionary zeal, to secure from Christian women, especially, systematic contributions for missions, and, finally, to support ministers and teachers on mission fields.

Any person may be a member of the Society who will contribute regularly to its funds a sum of not less than ten cents a month. One may become a life member by the payment of twenty-five (\$25.00) dollars, in not less than two annual installments. The members, for the most, are associated in auxiliary bands in the churches, and these auxiliaries hold regular monthly meetings.

An annual mass meeting is held in connection with the General Convention, at which officers are elected, reports are made, and other general business is transacted. During the interval between these annual meetings the business of the Society is carried on by an Executive Committee, consisting of the general officers and five unofficial members residing at or near the headquarters. The general officers are the President, Vice President, Corresponding Secretary, Recording Secretary, Treasurer, and a President and Secretary for each State.

The above-mentioned two officers for each State are not only members of the Executive Committee, but are at the head of a Board of Managers who act as an organization committee for the enlargement of the auxiliary force in their respective States.

The Executive Committee holds regular semi-monthly meetings for the prosecution of the ordinary business of the Association. For the purposes named, five members (including two of the general officers) constitute a quorum; but all new business of special importance, as the starting of new missions, and the like, is transacted by the whole Committee, the absentee members voting by proxy.

The general fund of the Society is supported by the contributions of auxiliaries mainly, by incidental offerings from the friends of the Board, and by interest on loans from an endowment and a permanent memorial fund, only the interest on these two funds being available for current use. The endowment fund is built up by bequests and life memberships, and it now amounts to \$10,538.73. The permanent memorial fund consists of amounts given in honor of deceased friends, and it is the understanding that the interest thereon shall be used in aid of western missions only. But many persons have sent like memorial offerings specifying that the principal is to be used in the prosecution of the Board's western missions. The permanent memorial fund now amounts to \$565.79. Besides these funds, there is an organizer's fund for the increase of auxiliaries, and a fund created by the contributions of the children, and used in the erection of buildings on mission fields.

The receipts of the Society since its organization have been as follows:

Receipts in 1875.....	\$1,169 63	Receipts in 1882.....	\$10,033 60
" " 1876.....	1 691 01	" " 1883.....	10,364 55
" " 1877.....	1,987 34	" " 1884.....	14,489 55
" " 1878.....	2,843 85	" " 1885.....	16,620 09
" " 1879.....	3,551 24	" " 1886.....	18,273 63
" " 1880.....	5 050 95	" " 1887.....	21,542 91
" " 1881.....	7,483 50		

The average increase per year exceeds \$1,500; the aggregate receipts from the beginning amount to \$115,111.85.

There are auxiliary societies in nearly all the States of the Union, comprising a membership of about 13,000. There are also 280 Children's Mission Bands in connection with the Association.

Its mission stations are as follows: In Jamaica—Kingston, King's Gate, Manning's Hill, Providence, Chesterfield, Mamby Vale, Rock River, Oberlin, Bethany, Ebenezer, Bethel, Baria, Mt. Zion, Mt. Olivet, New Bethel, Bloxburg, and Bushy Park. In Montana—Helena, Deer Lodge, Anaconda, Missoula, Corvallis, Stevensville, Butte City, Chestnut, Bozeman, Fish Creek, and High Wood. In India—Bilaspur. In Kentucky—Hazel Green. In Michigan—Ann Arbor.

The missionaries in the employ of the Board are:

W. K. AZBILL, General Agent, Indianapolis, Indiana.	J. W. JENKINS, Golden Spring P. O., Jamaica.
C. E. RANDALL, Bull Bay P. O., Jamaica.	John Thompson, Half-way Tree P. O., "
R. E. SWARTZ, Kingston, Jamaica.	MISS MARY KINGSBURY, Bilaspur, India.
	MISS MARY GRAYBIEL, " "

MISS ADA BOYD, Bilaspur, India.
M. L. STREATOR, Territorial Evangelist, Montana Territory.
ELI FISHER, Missoula, Montana Territory.

R. E. DUNLAP, Deer Lodge, Montana Ter.
G. K. BERRY, Helena, " "
GALEN WOOD, Anaconda, " "

The *Missionary Tidings*, which is a sort of official bulletin and medium of communication between the general officers and the other members, is edited by the Corresponding Secretary. The paper is in its fifth year, has a circulation of about six thousand, and has been from its starting a remunerative enterprise, as well as a very important aid in the work of the Society.
