EIGHTH ANNUAL REPORT.

It is my very pleasant duty to make the eighth annual report of work done in the field of religious education among Colored Disciples. Retrospecting upon the past eight years of service in the light of the present achievements it seems to me that we can better measure our success by the depth from whence we have come, even more than by the heights we have attained. Eight years ago, the Bible School among Colored Disciples, was a very neglected field. The American Christian Missionary Society, which has become an integral part of the United Christian Missionary Society, sent out the first Field Worker, to break the sod and thus prepare the ground for seed sowing. He found a great per cent of our schools at low

ebb. We are glad to say that within these years many of these schools have awakened out of the lethargy of indifference and are beginning to be different. All however have not yet attained. This one thing many are doing, forgetting the things that are behind, they press on toward the goal unto the prize of the high calling.

The first of the conventional year our little field force met in conference and planned our program to get in personal touch with as many of our Bible Schools as we possibly could. We have been able to follow out this planning in a very pleasing way. We have touched every school either through personal contact or through correspondence. As a Bible School Team, or single handed we have visited and done some work in the following states: Alabama, Arkansas, Georgia, Kansas, Kentucky, Mississippi, Missouri, North Carolina, South Carolina, Oklahoma, Ohio, Tennessee, Texas, Nebraska, Illinois and Virginia. In Alabama, Arkansas, Kansas, Kentucky, Missouri, our Elementary Supt. has appointed state Elementary workers. Kentucky has organized the three departments, Elementary, Secondary and Adult with splendid supts. leading these departments into a larger program of service.

As in previous years, we have in many ways followed the same routine of activities, namely: organizing new schools and standardizing old schools, holding personal and group conferences, attending District, State and National Conventions serving on many of their Future Work Committees, conducting Institute, Leadership Training Schools, when feasible co-operation with the Field Workers of the International Sunday School Council of Christian Education, etc.

OFFICE WORK.

Our office has been both stationed and portable. Through our office we have endeavored to serve our constituents in every way possible.

LEADERSHIP TRAINING SCHOOLS.

As a Bible School Team, we held our first Leadership Training School with the Woodland Avenue Christian Church, Kansas City, Mo., and our second with the North Little Rock Church having twenty graduates in all.

VACATION CHURCH SCHOOL.

We held a very fine Vacation Church School with the East Annie St. Church, Ft. Worth, Texas. This was the first and the only such school for Colored boys and girls in all the southwest. We are informed that the Kenyon Avenue Church, Cincinnati, Ohio and our new church in Cleveland, Ohio, have had very successful schools. There must be many more such schools held among our churches another year.

THE RURAL B. S.

There are many handicaps in carrying forward our program in the rural, our open country schools. First of all many of our workers in the country think that our program is suited for the city only and therefore impracticable for the country. Again there is some time, a dire need of leadership. Too often the country school closes its door when the first big frost falls to remain closed until the Easter season.

We discover once and again that a change in the leadership, would bring new life into the school. If many of the students returning home from school and many of the public school teachers in the community could be drafted into the Sunday school, it would help to lift many of the rural schools out of the rut of a quarter of the century.

FIELD FORCE.

Our field force consists of three workers, giving full time in the field. We hope some day in the not far distance that we may have a Secondary Supt. giving full time to the Young People's Department and an Adult Supt. who will give his time to this department.

STATE WORKERS.

There should be many giving volunteer service in the states. There is no good reason why other states should not organize the departments as has Kentucky. This state has a regular team, holding institutes in its district and state conventions. We crave a hearty co-operation from the state Supts. and Presidents. We are anxious to help you with your problems, and invite you to help us with ours. I am sure we can be of mutual help to each other.

LITERATURE.

We offer no criticism on the Uniform Lesson when used with the adults, they have served us for lo these many years. But the Uniform Lesson does not fit into the child's life as does the closely graded lessons. John Ruskin has said: "Education is leading human souls to what is best and making the best out of them." As the pupil passes through the various stages of development his interests widen and his needs become more complex. The curriculum, then must be comprehensive, to touch him on all sides; must meet his widening horizon, must be rich in contents to supply fully his every need. The graded literature takes into account, that every child is born again in a year's time. He has new views, new tastes, new talents, new emotions new social standards. We have just begun to appreciate the significance of adolescence, but few appreciate that somewhat of the same change comes in every year of every child's life. It does not manifest itself in the same way physically, but it is as real socially and intellectually. Let us ever hold in mind that: "The needs of a small group of children are the same as those of a large group and make the same demand upon us for adjustment and adaptation."

NEW AIMS FOR THE NEW YEAR.

1. To put new life into the Rural Sunday Schools.
2. Train more workers for the leadership of the church.
3. Organize more schools.
4. Grade and put in the graded lessons into more of our schools.
5. Give the people with whom we come in touch a financial conscience.
6. Stress as never before the departmental work in both state and local school.
7. Line up the adults of the church and community for Bible Study and Christian service.

8. The renovation of old church buildings and the building of new houses with departmental equipments.
9. To encourage the holding of more Vacation Church Schools.
10. Hand-pick Sunday school boys and girls for our schools and colleges.
11. Conduct more Leadership Training Schools.
12. To place the best literature in the hands of the leaders of our churches.

Faithfully submitted,
 P. H. MOSS, Field Secretary of R. E.

ANNUAL REPORT.

Passing at this time the third mile-stone as a worker on the field, I cannot but express my heart-felt gratitude for the fellowship and co-operation accorded me during these years of service. Without these there can be no achievements.

The year having carried forward a full program of work for us, and immense possibilities and responsibilities on every hand, I can say with pleasure that my work becomes more and more interesting every day.

WORK DONE.

My work this year has been similar to that of last year. I have had the pleasure of working with the team in Institute work through the following states: Missouri, Oklahoma, Alabama, South Carolina, Georgia and Texas. Assisted in one Vacation Church School at East Anna Street Christian Church, Fort Worth, Texas. This school brought to me many new experiences. Assisted also in two Five-day Schools of Methods in which a number of enthusiastic workers were awarded certificates at Kansas City, Mo., and North Little Rock, Ark.

TEACHER TRAINING

I have endeavored to give special attention to Teacher Training. It is to be regretted that out of thirty-nine classes, with membership of three hundred ninety-two reported last year, only fifteen are alive, representing two hundred four members in states as follows:

Alabama, Lum Christian Institute	8
Alabama, Macedonia Bible School, Oxmoor	12
Mississippi, Southern Christian Institute, Edwards	94
Mississippi, Christian Chapel Bible School, Port Gibson.....	10
North Carolina, Christian Institute, Golesboro	10
Texas, Jarvis Christian Institute, Hawkins	17
Texas, East Anna Street Bible School, Fort Worth	12
Kansas, Eighth Street Bible School, Kansas City	6
Kansas, Topeka Bible School	6
Missouri, Woodland Avenue Bible School, Kansas City	6
Missouri, Frankford Bible School	5
Missouri, Hanibal Bible School	4
Missouri, Lathrop Bible School	6
Missouri, Napton Bible School	3
Missouri, Centennial Bible School, St. Louis	5

New classes have been organized as follows:	
Georgia, Valdosta	10
Georgia, Thomasville	10
Georgia, Lake Park	6
South Carolina, Three-mile Creek, Ehrhardt	10
South Carolina, Matthew Grove, Ehrhardt	6
Total number of teachers in training 246.	

In many places teachers are availing themselves of the opportunity of the special correspondence course, thus helping to overcome the difficulty of providing suitable teachers for the class. Some classes die because suitable teachers cannot be obtained. If we are to put across our religious program, we must train our forces.

CHRISTIAN ENDEAVOR.

We regret that among some of our leading churches enough emphasis is not placed upon Christian Endeavor Societies. We must realize that no other department of the Church's educational project offers a better place for expressions than the CHRISTIAN ENDEAVOR. Every young person for whom the Church is responsible should be brought into it.

Promoters of the work could stimulate more interest by using literature offered by the Christian Board of Publication.

We recommend that a more prominent place be given on the program of the National Convention.

Closing this my third year's service, I am grateful to the Almighty for allowing me to work in the field of Religious Education. My gratitude goes out to those co-operating and sharing the responsibilities of the work.

PRESIDENT'S ANNUAL ADDRESS FOR NATIONAL CONVENTION.

Indianapolis, Indiana, August 21-27.

Another year has silently fled by. To many of us it seems but a little while ago since we have been enjoying the sweet fellowship created by the union of kindred minds gathered from different sections of the country. Today we are again beginning to enjoy that fellowship and are reminded that a year with its success and failures, its used and its neglected opportunities has swiftly taken its flight and we are brought together again to review the past and receive inspiration and strength to triumph over the foes that we must daily meet in life's battles.

We are here as Christian men and women and, true to the Spirit of our great Captain, we must forever make OTHERS, our motto. We are here because we believe in the great principles of Christianity and our faith is firm in the transforming power of the Word of God on the lives of those who are brought intelligently in touch with it. From our own experiences and our observations of other lives we are convinced that the only life that is truly successful, the only one that is really worth living is that of a Christian. Others may, for a while, seem to be prosperous but the scene is quickly changed and while they are still within the gaze of our eyes, we may see exemplified in them the truth expressed by the Psalmist when he said, "Fret not thyself because of evil doers, neither be thou envious against the workers of iniquity for they shall soon be cut down like grass and wither as the green herb," yet today there are many pursuing the path that leads to so tragic and disappointing an end and it is our privilege to direct their attention to a goal of far higher value and one that will endure as long as time itself. We must see our task clearly, see ourselves as workers together with God and behold mankind around us reaching out eagerly to grasp the gems of life and ours the privilege of pointing them to the true ones and helping to destroy that which is false.

We must see not only those associated with us in our immediate circle but must be acquainted with the existing conditions in the unlimited field that stretches far and wide around us. Here we meet with different groups. Some who are opposed to the program we are presenting, a far larger number that is cold and indifferent and still others who understand but imperfectly and even with a co-operating spirit may prove to be a hindrance to the cause. These are conditions that must be changed. In this larger field we must find our task and face it with the courage and strength that comes from our union with our ever present but unseen Leader. From these various groups we ourselves have been drawn and we stand now as the recipients of greater blessings as the ones who must be bearers of greater responsibilities. From this larger field we must draw others in to swell our own ranks. We cannot be successful

while others around us are failures nor can we be strong while they are weak for Humanity is one. No weaker brother can fall or falter, sin or suffer wrong, but the suffering reacheth every other and all the world with him doth weaker grow.

While we are met here as a National Convention, I am keeping more prominently before my mind the fact that we are the men and the women who are leaders in our local circles, both State organizations and church and it is as such that I am addressing you this morning. Here, we receive inspiration and instruction, there we translate them into practice. Each field has its own individual problem that can only be worked out there but there are great principles, fundamental laws of success that apply alike to all fields and to all workers, among these may be mentioned, a definite program, an aim, a purpose in each Bible School. Our Bible school work must not be a habit but a consciously directed activity that aims to reach some worthy goal. No individual nor organization can reach its highest attainment without some worthy object beckoning it onward. Illustrate with story of factory consuming all its products.

Such a factory was existing but it was making no contribution to the needs of the world and what was true of it may be true of Churches and Bible schools. It is easy to fall into the habit of drifting along without any definite aim and sometimes a still greater mistake is made—that of making self the aim. As workers in the Bible school we must be mindful of the fact that the school does not exist primarily for the advancement of our interests but we are called into active service for the advancement of the school and while we are faithfully rendering service with OTHERS, as our motto, this service reacts on our own lives and makes us stronger and wiser, if honor is attached to the positions that we occupy, we must be great enough to look beyond the honor and see the corresponding responsibility, the discharge of which alone can make the honor real. When teachers and officers of our Bible Schools shall have this sense of responsibility developed in all its strength and beauty, we may expect a new day to dawn for our work. This alone will lift us up to the heights where we can grasp the great and worthy Standard of Efficiency. As leaders, we are ourselves the living standard and those who are following us will not go any higher than the plain on which we are standing. I am going to recite a few of the sad scenery that may be witnessed in Bible School work even in this new day when everywhere around us in the business world Efficiency is the order of the day, I have seen classes assembled and the teacher was absent without making any preparation for the teaching of the class and some one who was unprepared and lacking the necessary qualification of a teacher was drafted to teach the class. I have seen teachers coming in ten and fifteen minutes late and still worse, I have seen teachers sitting before their classes who had made no preparation whatever for the teaching of the lesson and the short and precious moments filled with golden opportunities for impressing and changing a life were wasted. I do not believe that such irresponsible Bible School workers are to be found in a gathering of this kind. We are the ones who are supposed to have caught a vision of service, to have approached the years of maturity in our task and have put away childish things but the problem is still ours. In many cases, these are the ones among whom we are working and we must find

some means of making our sense of responsibility and our love for and devotion to the work be so strong that they cannot escape its contagious action. Our task is by no means a small one and it is challenging all that is strongest and noblest in us. Whatever else we may be, we are and ought to be teachers, whether we are called by that name or not and as such must face the fact that from all quarters we hear the same alarming news that only a small percentage of the children that enter the Bible Schools are carried safely through the teen age, and as strong young men and women are willing to do the work that is rightly theirs. This is only another way of saying that while the opportunities for doing so was ours, we had failed to make the impression of God and his kingdom so deep on these young minds and so real to them that the influences of the power of evil as manifested in the lives of many of their comrades could not overpower them. Such is in part, the task that confronts us, the work that we are called into partnership to accomplish. We can best do this first by making sure of our own standing for after all it is not what we teach, but what we are that really interests and impresses the lives of others. Thou must to thyself be true, if thou the truth wouldst teach. Thy soul must be overflowed, if thou another's soul wouldst reach. It takes the overflow of heart to give the lips full speech. But even when we are thus fortified, discouraging sceneries and reverses will come and we must have the faith and determination of Gideon and his three hundred or of a Daniel who will dare to stand alone for the right amid great opposing armies of wrong. It is the men and the women who refuse to surrender that are privileged to be leaders in the shaping of the destinies of their fellowmen and the wearers of such laurels as the world has to give. But we can find a greater incentive for faithfulness in our task in the strong words of Paul when he said: "They do it to obtain a corruptible crown but we an incorruptible. The picture of a great race comes full to our view. We see the contestants as they struggle onward to the end of the course. We are impressed with their wonderful power of endurance. The allurements of the spectators on either side have no charm for them but inspired by the thought of victory and a frail crown of fading leaves, they press toward the goal. Beholding the picture of this race we compare it with another, the one in which we are even now engaged but there is no comparison for the goal of our race overshadows theirs as the sun in its might would the frail light of a candle yet we do not find in our ranks the energy and the determined spirit that is to be found in theirs, but our race is not yet completed. We are now at the beginning of another mile. Let us face the future bravely and so run that we may win. To this end let us strive and pray for that sustaining vision that will not see defeat. See ourselves as a part of a mighty army marching on to certain victory and though as individuals, one by one we may be called from our places in the triumphant procession, we can go with joy knowing that we have made our contribution to the final victory and must continue to live in the thoughts and actions of others.

That we may be more practical, I shall not attempt to burden you with long and tiresome recommendations, but would call your careful consideration to those made a year ago which has but recently, if as yet come into your hands through our printed minutes.

As we plan and work together in this Convention, and enter into

the new Conventional year, may our Heavenly Father grant us more love, more power to overcome and the desire to co-operate in every good work.

R. A. GOODEN, Washington, D. C.

W. Watson that we meet at Kansas City. Substitute motion carried. Eld. J. B. Parsons made a strong plea for the Convention to go to Chicago while Eld. Wm. Alphin made a strong plea for Kansas City. After the motion had passed, Bro. J. Merchant of Chicago congratulated Kansas City on winning the Convention.

President asked all to stand in appreciation of the work done by Prof. J. B. Lehman, Supt. of Negro Work, during the year.

Report of the Business Committee. (See report.) Motion to adopt the report by sections. Carried. 1st Section was read, discussed and passed. 2nd, 3rd, 4th, 5th, 6th, and 7th passed without discussion. Partial report of Auditing Committee made and the Committee continued. (See report.) Report received. Report of Committee on Nomination of officers. (See report.) Motion by Eld. J. B. Parsons, seconded by I. C. Franklin the adoption of the report with the exclusion of Eld. H. G. Smith's name, as he was already employed. Carried. President Taylor explained the organization of the Executive Committee, and asked the Missionary Society to appoint their members to represent them. Eld. Raphael Hancock suggested that the Nomination Committee of the Women's Department and the Church Department retire and bring in the names for the names for the Executive Committee. Eld. Preston Tylor read a letter from Central Christian Church, Louisville, Ky., Eld. Wm. Owens, pastor. The letter contained \$5.00 for the Church Convention and \$3.00 for the Missionary Society. He read a letter also from Mrs. Georgia Stevenson and Bro. Chas. M. Harris of Tennessee containing \$7.00. The Nomination Committee returned and reported having decided on Eld. H. L. Herod as a member of the Executive Committee. Motion by Dr. J. E. Walker, seconded by Prof. Franklin the adoption of the report. Carried. Eld. Stafford Campbell made the report for Kentucky. Committee on Nomination of Officers in the Women's Department recommended Miss Roxie Sneed of Mississippi and Mrs. Hattie Malory of Chicago as members of the Executive or Advisory Committee. Motion by Mrs. Sharp of Kansas the adoption of the report, seconded by Mrs. Trana Frye of Kansas. Mrs. Preston Taylor offered a substitute motion or a motion to substitute Mrs. Rosa V. Grubbs instead of Mrs. Hattie Malory; after some discussion the substitute passed. Mrs. Rosa V. Grubbs and Miss Roxie Sneed were elected as members of the Committee.

President asked Prof. J. N. Ervin to serve as Commissioner of School Exhibits and Publications. He asked some of the Ministers to prepare a book for the next Convention.

President introduced Eld. C. C. Carter of St. Louis who had been recently ordained in the Missouri Convention as a minister. He is also the Editor in Chief of the Publication known as "The Harmonizer," published in St. Louis, Mo. Eld. H. L. Herod asked to be taken off the Program Committee, but Eld. Wm. Alphin motioned that he still be the Chairman of the Program Committee. Carried. Partial report of the Advisory Committee made by Mrs. Rosa V. Grubbs. President asked that the report be re-read by item and thus adopted. First item recommended Eld. H. L. Herod as National Field Secretary to raise finance to support the work. Eld. Herod expressed himself as being unwilling to accept the position and resigned, or declined. Eld. Wm. Alphin spoke in defense of the

work of the Committee, and asked all who were in favor of Eld. Herod to stand. All stood. Eld. Herod said he would consider and notify the Committee. Second item read and discussed by the following: Elds. Preston Taylor, L. H. Crawford, B. C. Calvert, Raphael Hancock, Wm. Alphin, H. L. Herod and Prof. J. H. Thomas. Motion carried to adopt. Session suspended without dismissal for dinner to return immediately to finish up the business.

President introduced Eld. C. C. Carter of St. Louis, who spoke in behalf of the "Harmonizer," a publication of which Eld. Carter is Editor in Chief. Eld. Stafford Campbell spoke in defense of the paper and Eld. T. R. Everitt also spoke.

President called attention to the printing of the minutes and asked all of the departments to send in their matter to the Secretary not later than fifteen days. Some discussion followed. President asked that we print three thousand minutes this year, and that we get bids from different places.

President read a telegram from Paducah, Ky., announcing the accident of Mrs. Ida Smith, rib fractured by a fall. Message sent to Mrs. Ella Brooks, sister to Mrs. Smith. He announced also that Bro. Bostick was called home because of the illness of his wife. A letter was read from the Hancock Street Christian Church, Louisville, Ky., asking the Board to open Central Christian Institute in their church, and they would pay \$50.00 per month so the teacher could fill their pulpit. The matter was referred to the Executive Committee. Prof. J. E. Bean of Indiana was introduced by Eld. A. W. Davis. Prof. J. N. Ervin introduced Prof. J. S. Julian, a young man he baptized. President asked that the Resolution Committees from the departments report at the same time.

The Business session being closed, a short memorial service was held for those who had passed away and for the sick among our ranks, especially Mrs. S. L. Bostick and Mrs. Ida M. Smith. REPORT OF THE WORK DONE FOR THE NEGROES BY THE UNITED CHRISTIAN MISSIONARY SOCIETY.

It is a pleasure for me to report to the National Convention the work done for the Negroes by the United Christian Missionary Society for the year beginning July 1st, 1921 and ending June 30th, 1922.

The Educational and Evangelistic work has been under my supervision and this will be my primary report, but supplemental to this I will also give a report of other departments. In the United States and in foreign lands. The world is fast becoming a homogeneous whole so far as uplift work is concerned and therefore work done in Jamaica and Africa contributes to the one end; viz. the bringing of this branch of the human family into the fellowship of the kingdom.

Students graduating from the Southern Christian Institute are granted a state license by Mississippi and we are in the act of getting Jarvis Christian Institute an accredited school. Piedmont Christian Institute expects to open in the fall of 1923 as a junior college.

It is the purpose to raise the standard of the college course in all our schools except the Alabama Christian Institute which must remain a junior high school. But it is not our purpose to lose sight of the feature that has gained such a great success for our schools. It will be many years yet before we may hope to get students in the upper grades, well prepared in spirit and intellect for service from public schools or from other colleges. We must make these and so we must maintain a strong work in the preparatory grades. Into these schools must come students above the seventh and eighth grades in great numbers. Only a per cent of these will show a development that would suggest going on through the college course. But they can get a very useful training. Unless the Negro can help the South to develop its latent industries and restore its worn-out farms he must soon move out and go into public works, and this would be a misfortune both to the South and to himself. Our schools can thus become a civilizing instrument and provide a very reasonable means of maintaining a high college course.

A GLANCE OVER THE PAST YEARS.

If we should add to this what has been expended in the past years for these departments in the United States we would have to add considerably over a million dollars. The Church Extension has loaned over \$100,000 to churches all of which has been paid back with interest. Brother Muckley tells with pleasure that not a dollar has been lost, though we may add that some of the accounts became long overdue.

We give this in order that it may be seen how much the Negro Disciples of Christ have profited by being in fellowship with a great brotherhood. If a policy had been adopted from the beginning that the Negro Disciples are an entirely separate people to whom might be given a hand-out occasionally, it is a serious question whether they would not have disappeared long ago except a few scattering churches. But this was never thought of. It would be impossible to think of its Colored constituents as a separate people, or denomination. Color will no more justify us in making a denomination than doctrine or creed.

It is impossible for me to make an accurate statement of the amount the Negro Disciples have contributed to this showing. But

beginning with the first rally put on by C. C. Smith which amounted to over \$600, the effort has grown each year, until the Jubilee effort was undertaken in 1916 to raise \$20,000. This amount was nearly raised in three years. Then came the Emergency drive for three special objects; viz., the Washington Church, the Central Christian Institute and Foreign Missions. Pledges were taken to the amount of \$115,000.00. Mrs. Grubbs will make a report of what was gathered.

This showing is good when we remember the difficulties to be overcome. The first of these difficulties to be mentioned must be the old and archaic financial methods of the Negro Churches. They assessed each member five, ten, twenty-five or fifty cents a month irrespective of how well they were off. And they never raised missionary money, except a few days before the convening of the annual convention. They were not taught to give as the Lord has prospered them. The next difficulty to be mentioned is the habit of thinking in terms of segregation. It was extremely hard for the entire brotherhood, white and colored, to think that we are one. It was always us and you. Every gift that they gave to the National Board in those days was looked upon as given to some one else. The full power of the Negro Churches can not be made available until they can feel that the redemption of the world is our work.

We close with a most earnest prayer that our Heavenly Father may lead us to see how great a task we have undertaken. The way has been opened for the Negro's voice to be heard in our National Councils in proportion to his own development. We are doing that which must have a powerful influence on the solution of all race problems the world over, and it would be a great misfortune if ignorance and narrowness on the part of leaders in any race should keep this from full fruition.

Respectfully submitted,

J. B. LEHMAN.

REPORT OF THE JOINT ADVISORY COMMITTEE.

The Joint Advisory Committee is composed of the Executive, of the National Convention and of five members chosen by the United Christian Missionary Society. This plan of considering the questions arising from the fellowship of this large group of Disciples in the enterprises of the world missions was adopted by the Christian Woman's Board of Missions and has been fully accepted by the United Missionary Society and the National Convention. All questions of policy must therefore go through this committee before they are adopted either by the United Christian Missionary Society or the National Convention.

The proceedings of the committee during the last convention were adopted and have been published in the minutes of the meeting. The committee has held two sessions since that Convention, one at Winona Lake in September and one at St. Louis in March.

THE MEETING AT WINONA LAKE.

The proceedings of the meeting at Winona Lake, were as follows:

1. That the United Christian Missionary Society through the Home Department recommends that in a temporary way the school for training Religious workers be started this autumn.

2. That H. L. Herod be asked to conduct the school in connection with his work as pastor of the Second Christian Church of Indianapolis, Ind.

In accordance with these recommendations a budget was provided for and plans were made for the opening of the school, but the effort was made too late in the season and some opposition developed and so nothing was accomplished.

THE MEETING AT ST. LOUIS.

The meeting at St. Louis in March considered the plans anew, made report of work done, appointed a committee to visit the Kentucky State Board and confer with them relative to some sentiments expressed by them in communication to the Home Department and made the following recommendations:

1. That the churches be advised that all pledges made to the Emergency Campaign and receipts therefrom belong to the United Christian Missionary Society to be expanded by the executive Committee in accordance with agreement formulated in the Joint Advisory Committee.

2. That a revised list of pledges be compiled and authenticated by each state.

3. That a letter be sent to all churches and pledges reporting the action of the Joint Advisory Committee regarding the Emergency Campaign.

4. That someone approved by the Joint Advisory Committee in each state to be responsible for the collection of the pledges.

5. That Easter Sunday be set as a time for the collection of these pledges, as far as possible, and for the securing of additional funds for the work.

NEW RECOMMENDATIONS.

The Joint Advisory Committee which convened at Indianapolis, Ind., August 22, 1922, makes the following recommendations:

1. That this committee be called the Executive Committee instead of the Joint Advisory Committee and shall be made up of the President and Corresponding Secretary of the National Convention, the President of the Woman's Department, the President of the Sunday School Department, three others chosen by the National Convention and seven members chosen by the United Christian Missionary Society; but it is provided that at least three of the members representing the National Convention be women.

2. That it shall meet at least once between the time of the Conventions and shall be responsible for all matters of policy to be recommended to the United Christian Missionary Society.

3. That a budget of \$20,000 be adopted for the coming year and that Executive Committee apportion this among the several states subject to the approval of the State Boards, who, when they shall have approved, or fixed some other amount, shall apportion the churches subject to their acceptance and instruct them to send promptly to the United Christian Missionary Society taking care to

give the correct name of the Church and address so proper credit can be given.

4. That this apportionment shall be based on the Emergency pledges yet unpaid and that the payment of all unpaid pledges shall be credited to the apportionment of the State and Church in which made.

5. That every pastor, Sunday school and Superintendent, and woman Missionary leadsr be urged to teach the Churches to get under the whole task of the church.

6. That, in view of the fact that within 20 years the churches will probably need over four hundred ministers and the schools over two hundred teachers and the Missionary organizations many field workers and organizers, we urge every church to observe a Go Away to School Day on the first Sunday in July, 1923.

7. That we express our gratification over the fact that means have been provided to furnish the first unit of the Washington Church, the new College building at the Peidmont Christian Institute and to put a family on the farm near Louisville.

8. In view of the fact that there is a new and growing interest in evangelism, and since our Brotherhood has a great five year evangelistic program to add one million new members to our churches at home and abroad, we recommend the following:

(1) That every church among us enter most heartily into the "Each One Win One" Pre-Easter Campaign which is to be carried on in 1923 from January to Easter Sunday.

(2) That the churches be asked to observe a special simultaneous evangelistic camplagn during June, July and August, 1923; and that some time during these three months every church plan and hold a revival meeting either with home forces, with another pastor, or with an evangelist.

(3) That every pastor among us be urgently requested to hold one revival meeting aside of his own local church and that this revival preferably be in a weak or pastorless church. That the churches be urged to give their pastor for this work and pay them regular salaries while they hold missionary meetings.

(4) That each church seek to have at least a 15 per cent increase during the year.

(5) That during the time of the Pre-Easter campaign and the simultaneous revival a wide use of the evangelistic tracts and literature of the United Christian Missionary Society be made by the ministers and churches.

(6) That personal workers classes be organized and trained during the Pre-Easter campaign, or during the month of May after Easter.

(7) That two decisions days be observed in the Bible Schools this year—Christmas and Easter.

(8) That the churches or their pastors be asked to report their revival meetings and evangelistic plans this year to the secretary of evangelism, Wm. Alphin, who shall publish the same in the Gospel Plea, and that cards for reports be sent out soon with the expectation that they be promptly returned.

(9) That the Program Committee of the next Convention be asked to give two whole sessions to evangelism.

(10) That during the fall months we seek to intensify the Evangelistic passion and spirit in all our churches, schools and organizations.

(11) That the following definite items be suggested to the churches to help promote evangelism:

- (a) And evangelistic committee be appointed and organized in every church consisting of the pastor, a member of the official board and representatives from the Bible School and the Endeavor Society.
- (b) A personal workers' class be organized and trained in each church.

9. We recommend that H. L. Herod be appointed General Secretary of the churches by the National Convention, and that he shall be responsible to the United Christian Missionary Society and to the National Convention and the National Convention shall be responsible for \$1000 for his salary.

10. That in view of the fact that the Gospel plea can not in its present form serve the greatest good we recommend that William Alphin be given the department of Church Life, J. N. Ervin the department of Education, P. H. Moss the department of Religious Education and Mrs. Rosa V. Grubbs the department of Missionary Education, and that if possible an associate office editor be secured during the year.

Committee for the National Convention:—Preston Taylor, William Alphin, H. L. Herod, J. N. Ervin, R. A. Gooden, Mrs. Hattie A. M. Singleton, Mrs. Rosa V. Grubbs.

For the United Christian Missionary Society:—Grant K. Lewis, Robert M. Hopkins, E. L. Cunningham, Affra B. Anderson, J. B. Lehman, Chairman.

REPORT OF SECRETARY OF EVANGELISM AND CORRESPONDENCE.

In the beginning of the ministry of Jesus he appointed twelve, that they might be with him and that He might teach them, and send them forth to preach.

Thus emphasizing the fact, at the beginning, a preacher of the Gospel must be taught (prepared) and sent. The Church of Christ on earth is the result of preaching the Gospel. The Church was born in an atmosphere created by Evangelism.

The mission of the church on earth is to preach the Gospel. Evangelizing the world has been Committed, by Christ and his church, to men, men, not angels or Holy Spirit, received the great commission on Mt. Olivet. At Pentecost the Holy Spirit came upon men who preached the Gospel. The evangelism taught in the New Testament is very simple. It was, and forever must be under the direction of the Holy Spirit. It was effective in the days of the Apostles. It will be effective now. Evengelizing the people was the one big task to which the Apostles committed themselves. The Gospel of the first century is the Gospel for the twentieth century.

The Restoration of the New Testament Church must be accomplished by the restoration of the spirit of New Testament Evangelism. With the disciples of Christ there is no substitute for New Testament evangelism in the great restoration movement.

Therefore the five-year campaign of Evangelism to win an addition of one million souls to Jesus Christ. The five-year campaign of evangelism is under the Home Department of the U. C. M. S. Following the recommendation of the Inter-National Convention, the Executive Committee of the U. C. M. S. called Mr. Jesse Bader,

of Kansas City, Mo., as superintendent of Evangelism. Immediately upon assuming his duties he inaugurated the five-year world-wide program of New Testament evangelism.

Upon the recommendation of Pres. J. B. Lehman, the Cor. Sec. of this Convention was asked to serve as secretary of evangelism for the Colored churches. This was approved by this Convention.

Since the last Convention we have endeavored to get the program, as outlined by Mr. Bader to all our pastors, churches and conventions. All pastors, who answered the appeal, adopted the program. Many of them also held meetings. The evangelist and regional workers also accepted and approved the program. All conventions were asked, through president or Secretary, to give Evangelism a place on their State Convention Programs. The reports of meetings held by pastors and Evangelists are encouraging and show we are at least beginning to get in on the program of evangelism.

The Literature, requests and programs sent by Mr. Bader have been careful and promptly gotten out to pastors, churches and conventions. During the fall of last year several meetings were held by the pastors and evangelists in different states. A few of the churches and pastors have adopted and are working the "Each one win one and each one won win one" program.

The Pre-Easter campaign was urged and the largest number of reports and results came from this campaign.

However, we learn some of our larger congregations failed to observe the Pre-Easter Campaign. Encouraging reports came from the Bible School that observed the Decision days. We have ground for hope of a better observance of the decision days in our Bible Schools. The program of Christian Education, that is being installed in the local schools and Conventions, by Bro. Moss and his Associate workers, should give us much inspiration and great hope.

The program for conservation of the additions was sent out following the pre-easter campaign. We are sure from the response from pastors and workers, this was a great help to the active pastor. It helped him by sane and practical suggestion, to reach and elicit, and find places of service for both the old and new members.

It is impossible for me, or Bro. Bader, to actually tabulate the really great results of the evangelistic program that have come to our entire church work. Again, we are sure its value will increase as we learn more about it, and really work it. It will greatly help if we put really into practice the Colossal "All," and all get into the evangelistic Campaign according to the program. The Home Department of the U. C. M. S. and Mr. Bader writes encouragingly of the results so far, but are exceedingly anxious that the evangelistic spirit of pastors, churches and all departments continue to increase, and a larger fellowship and full co-operation on the part of all be secured.

I have tried to get some State reports that we might, at least, get an estimate of the activities etc., in a general way. As you may know we sent State report blanks to all of our State Secretaries and President. The following states reported:

Missouri, Arkansas, California, Alabama, South Carolina, Florida, Georgia, Kansas, Texas, North Carolina, Virginia (Piedmont District), Oklahoma.

(I hope the secretaries or delegate from these states will be given time to read these reports, and others who may have reports from their state.)

While the pastors, churches and evangelists are requested to make their reports directly to Mr. Bader, we kindly asked for the benefit of the Convention, they make state reports of a larger nature to this convention. These reports should include the Evangelistic, and financial activities of our local churches. Such reports are expected to be carefully gotten by the Presidents and Secretaries of our State Conventions, and carefully compiled and reported in this state report to this National Convention. The Executive Committee of this Convention should have full information and knowledge of the evangelistic, educational and financial activities of the Constituency. Otherwise how can they be efficient and intelligent representatives.

Therefore, your secretary kindly ask that although you make your report of Evangelism directly to Mr. Bader (and do not fail to do so) that you also make the same report to your secretary, or in your state report to this Convention.

The fall program of evangelism will soon be distributed. It is very much desired that all our churches line up in the Campaign this fall. The annual report of our churches should show a large increase in the membership. The local church is the base of all our Missionary activity. All will grow if the local church grows. In truly strengthening the local church by evangelism, we strengthen all our Common interest. Circumstances, are of such our pastors must be evangelists. Some one has said "Set the Pulpit on fire and the world will come to see it burn." Evangelism converts men for the Ministry, the schools help to prepare them.

More genuine Gospel evangelism will produce more men for the Ministry. The main cause of the lack of preachers is the lack of New Testament evangelism in the church. The spirit, zeal and loyalty of New Testament evangelism, will help to make preachers out of educators and men of all professions.

Evangelism Consecrates and brings out the best service of the church. The pastor and church that are truly evangelistic meets few impossibilities. Truly vacinate the church with the spirit of gospel evangelism and she will be protected from many diseases so often taken by our churches. Nothing disciplines a church membership, boil out the imperfection, give her rich red blood, a spiritual appetite and put her to work on the real job, more than straight forward evangelistic gospel preaching. As already said nothing will substitute for it.

It will bring into the church both personal and group evangelism. New Testament Evangelism will put the whole church in on the job of soul winning. The church of Jesus Christ is the only institution on earth that has for its sole objective the winning of souls and lives to the service of God and man, in the name and spirit of Jesus Christ. The church must not so entangle herself with materialism, socialism and commercialism as to change her objective and take from her the only method, evangelism by which her objective must be met.

The church has in her possession the solution of all human problems—the teachings of Jesus Christ.

Respectfully submitted,

WILLIAM ALPHIN.

ADDRESS OF PRESTON TAYLOR, PRESIDENT OF THE NATIONAL CHRISTIAN CONVENTION.

If we count the years, we must of necessity take in the calculation, the advantages and the disadvantages, prosperity and adversity. The world loves its own and would have us look on the things temporal and be made level with the tide. The world is in keeping with gravitation. Not only did the apple fall, but Adam fell with it, and we, like the dew of heaven, have been falling and counterfalling ever since. We are consoled with the knowledge of temporal things ending. The human family is still in a probationary state and must continue in this condition for a period. Our line up is much like the condition I found at the depot—one sign read: "This way in," another read: "Exit—this way out." This is why Jesus brought the lessons of regeneration so vividly to the attention of Nicodemus. It is the way out of the pollution of the world. The world is drunk today with denominationalism, divisions and the dogmatic of the so-called creeds. Why should these corruptable things assume the nature of the incorruptable things,

In comparing the teaching of Jesus with that of men, what a wide breach. All things are yours if you accept of Jesus. You must accept of His message also, as the condition of salvation, you are representatives of the new dispensation. First, it is new because Jesus is king. Second, it is new because He has established His Church. Third, it is new because all of the ordinances are new. No Lord's day, no Lord's Supper, no immersion until Jesus opened up His kingdom on earth. Who would be guilty of taking the children's bread and eating it to the dogs? Be not contented of eating the crumbs falling from the Master's table, but be a full-fledged disciple in name and deed. Do you want Jesus to love you? Is it too much to ask you to love Him? No one can live alone. You can exist without Jesus and Jesus wants you to be his friend and co-worker in the mission of the world.

THE REFORMATION.

Is the stone cut from the multiplicity of churches and like a mighty army have marshalled its forces against every creed of men, and when you count every human organization in opposition to the progress, it is marvelous to record its growth, numbering a million and a half in membership and millions invested in church building, colleges, schools, hospitals, homes for the destitute, with thousands of agencies as ministers, teachers, missionaries and workers in many foreign and home fields. Time would fail to tell of the great contributions of money in support of these great enterprises. The tide has swept over land and sea until we stand the third largest religious body in the world. If the Lord be for you who can be against you?

The reformation does not mean a new doctrine, but going back to the old paths and walking therein, finding the land marks of the Pentecostal church where our hearts are purified by faith. Repentance changes the life and immersion changes the state, and we rise in the new relationship to our Lord Jesus Christ. Like the word religion, means rejoicing to the separated. The world has been divorced from God on account of its disloyalty to Him, but God says: "Come now, and let us reason together saith the Lord, though your sins be as scarlet, they shall be as white as snow; though they be red like crimson, they shall be as wool." And Jesus

reaffirmed and extends an invitation, "Come unto me all ye that labor and are heavy laden and I will give you rest."

THE INTERNATIONAL MEETING AT WINONA LAKE

Received your delegates and they were accorded all the courtesies needful. We were assigned to one of the most important committees where we rendered very satisfactory service, and arrived at some of the most vital decisions.

THE JOINT ADVISORY COMMITTEE

Was called in session at Winona Lake, all being present except Brother William Alphin, to consider the school proposition. After much discussion about the Louisville and Kentucky location, the committee found the most complete arrangement could be had at Indianapolis and Brother H. L. Herod was selected as the President of the temporary school. But on account of short time for advertising and enrolling young men, the school did not open.

THE PRESIDENT'S TASK

Has been a very hard and trying one the past year. The correspondence has increased a hundred fold, and invitations to be present at the opening of newly bought church property, dedications, rallies and State Conventions have been answered to our fullest capacity, and there are many more on our calendar to be considered. The greatest opportunity is now open to our brethren to buy the very best church property in a number of leading cities, and many are taking advantage of it. This is an age of progress and our brethren should lose no opportunity in securing the very best locations and the most improved church buildings for their congregations. The best is what you need for the cause that you represent.

THE EMERGENCY DRIVE

Was in many respects the best asset the church ever launched. It brought before the people the object of a progressive undertaking, and aroused a sleeping church, besides giving an acquaintance of the many wealthy members and friends. It was bread cast upon the waters to be gathered in the near future. The seed sown are already bearing fruit. It has inspired our Boards to undertake some gigantic work that is much needed. Nothing gives more encouragement, to those who can help, than to see those in need helping themselves. Let us keep in mind the campaign that housed the millions of dollars that put over the great world's war. There is a moral lesson in this ambitious work that ought never to be forgotten by the disciples of Christ.

THE WORK OF THE NATIONAL CONVENTION

Cannot be computed in dollars and praise. Instead of being the fifth annual convention, it ought to be the one hundredth gathering of the Disciples of Christ. We attended the fiftieth annual Convention of the brethren in Kentucky last month. Their increase has been wonderful, both in ministry, property and missionary work. Our object is a nation wide work, and we have covered much of the ground we had in view. It has brought together from the four parts of the globe these master workmen which has been one of

the greatest achievements. All of our plans and future work have been thoroughly thrashed out. We understand the great commission of Jesus as never before, because we understand the brethren better.

SOME OF THE WORKERS.

Your general Evangelist, Brother A. W. Davis, has remained with the brethren in Kansas City, Kansas, and built for them one of the most commodious and finest building in the Brotherhood and the membership increased to a hundred fold. Brother P. H. Moss, Brother E. R. Williams, and Sister Deetsy L. Blackburn are growing in favor of the whole child kingdom. The young people are singing their praises everywhere and they are building up the future church which will develop some of the greatest men and women out of their product. The State Evangelists and workers are covering every inch of territory with good results and our ranks are growing. Mrs. Rosa V. Grubbs has been steady at the helm, directing the field from a long range of correspondence, covering the emergency track, enrolling new workers, and in a general way, directing the line of march which has been bountifully blessed with the efforts put forth.

OUR RELATIONSHIP TO THE UNITED CHRISTIAN MISSIONARY SOCIETY

Is all that the customs and laws of the land will permit. Unquestionably, they are bestowing upon us ten-fold more than they are receiving from us. No better evidence is needed to convince all concerned that they are seeking to save us with a larger legacy than we could possibly otherwise have received, besides the fellowship is worth more than mines of gold. Like the Master, they are not ashamed to call us brethren and extend to us greetings as a National Convention, representing the entire Church among our people. We are thankful for the deep interest fostered by them in our cause and ask for increase in interest and support for the cause we represent.

THE WASHINGTON CHURCH.

The building is well on the way of construction with the first unit and will soon be ready for service, which will be one of the leading monuments of Christianity, and stands in the midst of the capital of the nation, in sight of the Washington monument and long beside one of the most costly Young Men's Christian Association buildings in use for our people, and the Brotherhood may be assured that the congregation in Washington City will measure up with any among us and will be a convoy to all who may visit them.

PRINTING PRESS.

We delegated Miss Elizabeth Harden, of Lexington, Ky., to proceed with full authority to buy the outfit, if it came up to the requirements, but another party stepped in ahead of us and closed the deal for it. Mrs. Ida D. Taylor is anxious to donate the promised sum of money to put in operation the much needed machinery.

RECOMMENDATIONS.

1. We recommend the election of a General Financial Agent, whose duties shall be to raise funds to carry forward the work.
2. We recommend that competent teachers be employed and a Bible chair be put in operation, both in the Southern Christian Institute, at Edwards, Miss., and at Jarvis Christian Institute, Hawkins, Texas, at the opening of the fall term.
3. We recommend the renewing of our Emergency Campaign and we ask each state organization to put out a strong team and canvass every member and friend to raise funds to meet these demands.
4. We recommend the opening of a school that will meet the requirements of our young men and women for the ministry, teachers and leaders; that it be the slogan of this Convention to press this claim for immediate action.
5. We recommend that this Convention endorse the action of the brethren in St. Louis in purchasing the property under consideration, realizing they cannot win out in their present location and surroundings.
6. We recommend that our churches open up community work in every city. Instead of our churches being closed five days out of seven, let them be opened daily for institutional work, Bible reading, prayers, singing, music. Put in charge your local workers.
7. We recommend that our churches select a reporter in every city whose duty shall be to furnish the local papers their church news, advertise in street cars, public places, the location of the church, hour of service. One firm spends a million dollars a year advertising its drinks. It pays to advertise.
8. We recommend that a standing committee be appointed to take under advisement the securing and opening of a home for orphans, widows and old ministers.
9. We recommend that the Pre-Easter Campaign be put on this year, and our ministers enter into the spirit of the work with all of their forces to save souls, and that Brother William Alphin be superintendent of that department.

Reach down thine arm of salvation,
And cause us to attend;
Where congregations never break up,
And rest never ends.

There the wicked will cease their troubling, and the weary be at rest.
